

We're bringing the

ZOO TO YOU!

CROWNED CRANE

DARING DANCES

Have you ever seen our East African crowned cranes dancing? Sly, the male, can be seen bobbing, flapping his wings, or running in circles in a “courtship dance” around Tina. Can you think of how other animals court?

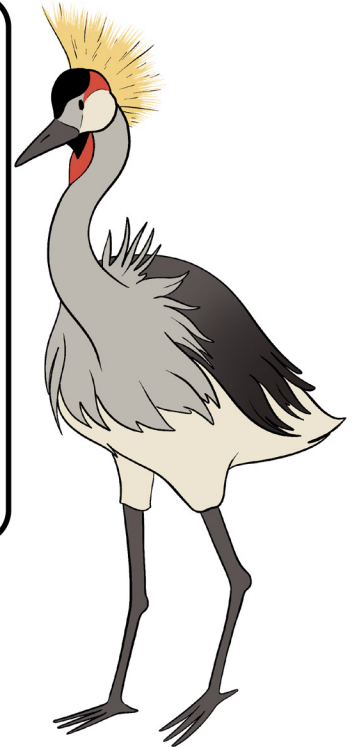

Use different colors to learn how animals court!

Use blue for animals who use dancing.

Use green for animals who use loud calls.

Use orange for animals who use biting.
